WMUA

Office of the Dean of Students May 14, 1969

President John W. Lederle, Mr. Robert J. McCartney

UNIVERSITY BROADCASTING COUNCIL

As an advisor to WMUA-FM, I attended a recent meeting of the University Broadcasting Council at which WMUA was petitioning for a power increase.

The expertise of those represented on the council was apparent from the questions considered, ranging from general policy matters to technical enginmering issues.

However, I was concerned about the obvious, admitted, albeit perhaps healthy competition, between the management of WMUA and WFCR. Their own relevance, roles and operational philosophies were well expressed and documented, and clearly both serve a vital function for their individual audiences.

Because of their mutual concerns and since the issues of public policy and the involvement of the University pertain to both, I would recommend that the Station Manager of WMUA-FM should be a permanent voting member of the Broadcasting Council as is the Station Manager of WFCR.

There may be issues here of which I am not aware, and I defer to Mr. McCartney on this matter.

Robert N. Brooks
Assistant to the
Dean of Students
